

Our Curriculum Intent

At Tadcaster Primary Academy we encourage our children to have high aspirations and to be responsible, respectful individuals who show tolerance and kindness towards others. We value each child, ensuring that they have their own voice and identity while appreciating the importance of belonging within a team. This is demonstrated through our school values ***Belong, Believe, Achieve.***

Our aim is to provide an exciting whole school theme approach, which connects each team together in their learning. Our thought-provoking curriculum encourages our children to have inquiring minds, asking questions about the world they live in.

Through our knowledge rich curriculum, we promote a love of learning and spark curiosity and enthusiasm. This empowers our children to confidently move onto the next phase of their lives to become lifelong learners.
